FPG2 Single-stage flat motor with Transmission

For reliable performance in reduced size: The Bosch compact geared motors are the appropriate solution for industrial applications with limited space. These drives exhibit high power density and cover a broad field of 12 and 24V requirements. Bosch offers different speed/torque characteristic curves and various mechanical interfaces.

Degree of protection: IP 54

Operating mode: S2

Rotation direction: Left and right

rotation

Nominal voltage: 12 V

Product Specification

Technical data and performance curve

Nominal power (W): 7,8

Nominal current (A): 6

Nominal speed (rpm): 74,5

Nominal torque (Nm): 1

Stall torque (Nm): 13

Transmission ratio: 73:1

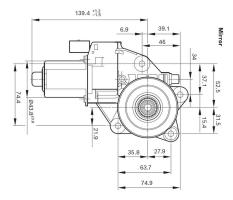

Hall Sensor: 2x

Transmission position: Right

Connector

Housing:

Yazaki 7287-1116-30

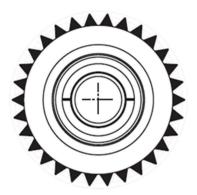

Locker:

-

PIN:

LEAR MDK 3 PLUS 26628.331.179

Drive interface

DIN 5481 - 21x24

Features and benefits

- Rotation in both direction: The Bosch small geared motors can be used as a drive
- Production in line with the original automotive quality guidelines: For proven quality, high reliability and a long service life
- Operating mode S2 or S3: Suitable for short-term or intermittent operation
